DRS MARINE, INC.
Attn: Mr. Richard Williams
1378 Lemon Street
Vallejo, CA 94590

JUN 08 2009

Dear Sir:

This office has reviewed your Anchor Waiver Request, dated May 20, 2009, for the temporary anchorage along the Oakland Inner Harbor Canal between Derby Avenue in Oakland, CA and Broadway in Alameda, CA. The project locations are: 37°77"N and 122°233"W. The project is scheduled to take place Monday through Friday from 7 a.m. to 5 p.m. Based on review, I am granting you a waiver from 33 CFR 110.224(a)(1), which prohibits vessels from anchoring outside designated anchorage areas, beginning 5:00 a.m. on June 15, 2009, until 5 a.m. on June 26, 2009.

This waiver is granted subject to the conditions outlined below:

1. In accordance with your anchor waiver request, DRS Marine, Inc. shall anchor along the Oakland Inner Harbor Canal between Derby Avenue in Oakland, CA and Broadway in Alameda, CA. These operations shall be conducted Monday through Friday, 7 a.m. to 5 p.m. beginning June 15, 2009 and concluding June 26, 2009.
2. The project superintendent, Richard Williams, shall be readily accessible at (707) 974-2789 and VHF-FM marine channels 13, 14, 16, and 71.
3. The on-scene representative from DRS Marine, Inc. must coordinate operations with the San Francisco Bar Pilots Association through their Operations Pilot at (415) 393-0457 on a daily basis to obtain a forecast of vessel transits through your project area.
4. You shall notify the Coast Guard Vessel Traffic Service San Francisco at (415) 399-7410 or VHF 14 daily upon beginning and completion of operations. You are to adhere to these operating conditions, and if your operations require you to deviate from this plan, you must immediately notify Coast Guard Vessel Traffic Service San Francisco at (415) 399-7410 or VHF channel 14.
5. You shall monitor and answer VHF-FM marine channels 13, 14, 16, and 71 while engaged in this project.

6. Your vessel(s)/barge(s) and any equipment that is anchored, moored to mooring buoys, or extends into the waterway must be properly marked pursuant to Title 33 of the U.S. Code, section 2001 et al. (Inland Navigation Rules), in regards to required markings and lighting to prevent it from being a hazard to navigation.
7. Floating obstructions such as buoys shall conform to the characteristics set forth in the standard U.S. system for aids to navigation as per 33 CFR Section 66.01-10.

Mooring buoys are moorings in fixed locations, and should be white with a blue horizontal band and have a flashing four-second white light visible from a distance of 2 miles. A permit for any mooring buoy must be obtained from the District 11 Private Aids to Navigation Manager, Mr. Brian Aldrich, at 510-437-2983.

Anchor marker buoys shall be white, and should be lighted with a flashing white light when working near the navigational channel, and shall be used if working in the navigational channel.

8. Any anchors used during the project shall be recovered from the waterway upon the completion of the project.
9. You shall notify the Waterways Management Division upon completion of your project.

Should you have further questions or concerns regarding this approval, contact LTJG Simone Mausz, Sector San Francisco, Waterways Safety Branch, at (415) 399-7442.

Sincerely,

K. W. MOHR
