The Retail Cargo Security Committee of the International Cargo Security Council

is hosting a series of Roundtables in various geographical regions of the U.S. to raise the Awareness and Understanding of Supply Chain Security and how it affects the Retail Loss Prevention Professional. These Roundtables will be a structured but informal discussion that will include case studies, best methods programs, physical security, cargo tracking systems, seals, locks and yard security.

The registration fee for the Roundtable is very low thanks to the generosity of an ICSC member sponsor. These will not be sales pitches but, instead, will be open and frank discussions of what works well and what doesn't work quite as well.

This is a great opportunity to further advance your Supply Chain Security knowledge and to share your expertise.

Our first Roundtable took place on July 26th in New Jersey and was a great success. The response rate was so great that we had to turn people away. The upcoming roundtable is scheduled for late September in the Long Beach, CA with the next planned for Jacksonville, FL. Space is limited to 40 people and will fill up fast. Mark your calendar for the upcoming Roundtable now and stay tuned for more information on the subsequent ones in the near future.

Date: September 29, 2005

Continental breakfast at 8:30 a.m.

Meeting starts at 9:30 a.m. and will conclude at 3:30 p.m.

Lunch will be provided.
