March 4, 2005

To All Interested Parties:

The Administrator of the Office of Oil Spill Prevention and Response (OSPR) announces anticipated openings in the San Francisco Bay Harbor Safety Committee (HSC). Representatives from the field of expertise or interest listed below are encouraged to apply.

\$ Tanker Operations	
----------------------	--

The term for all members is three years.

The Lempert-Keene-Seastrand Oil Spill Prevention and Response Act of 1990 established HSCs with a primary purpose of planning for the safe navigation and operation of tankers, barges, and other vessels within their respective port or harbor areas. Each HSC prepares a harbor safety plan. On or before July first of each year, each HSC revises its respective harbor safety plan, and reports its findings and recommendations to the Administrator.

The final filing date for all applications is May 5, 2005. Should you have any questions or would like to request an application, please contact Barbara Foster at telephone number (916) 327-9406 or via e-mail at [bfoster@ospr.dfg.ca.gov](mailto:bfoster@ospr.dfg.ca.gov).
