Distributed with your meet packet for your consideration is the draft revised *San Francisco, San Pablo and Suisun Bays Harbor Safety Plan*, dated June 14, 2007. The state's Harbor Safety Committees are required to review and update their Plans as needed on an annual basis by the end of the state fiscal year (June 30), and to submit the approved Plan to the Administrator of the Office of Spill Prevention and Response. The Administrator then accepts or does not accept the revised Safety Plan.

An affirmative vote by the majority of the Committee is needed to approve the Plan as revised, and to forward it to the Administrator for final adoption.

In addition to a revised Executive Summary to reflect the Committee's activities in 2006/2007, some minor changes based on recommendations from the USCG, such as replacing "Sector San Francisco" for "MSO", were made to the body of the Plan. The following Appendices were modified to reflect updated information:

1. Appendix D, Annual Work Reports
2. Appendix E, the Tug Escort Violations Summary for 2006
3. Appendices F, G and H, Clearing House reports for 2006
4. Appendices L and M, USCG Bay Port Safety and Pollution Statistics for 2006
5. Appendix N, SLC Waterborne Petroleum Statistics for 2006

Appendix A, which lists the Committee membership, will be updated as of the June 14, 2007 meeting meeting.

I will be at the meeting to answer any questions the committee may have.
