

The San Francisco Bay Region was voted the 2006 HSC of the Year with Tampa Bay coming in as the runner up. A citation and award will be presented to a representative of the San Francisco Bay Region during the evening dinner on Day 2 of the conference. The recipient of this award is generally not made public prior to the award ceremony but it was our desire to share the results with those of you who submitted nominations. Congratulations are due to each of you for your admirable efforts to preserve the safety and efficiency of our ports and waterways.
